Why this programme

HR has moved from an administrative back-office function to a seat at the business table. This module is built to take a learner from first principles all the way to strategic HR practice — with the compliance knowledge, process discipline and interpersonal skill that the role demands every day.

Programme goal

To equip participants with a comprehensive understanding of core HR functions, legal compliance, best practices and the skills necessary to perform effectively as an HR Generalist.

Learning objectives

On completion, participants will be able to:

- Understand the strategic role of HR within an organisation
- Navigate key labour laws and ensure compliance
- Execute effective recruitment and selection processes
- Develop and implement robust onboarding programmes
- Manage employee relations, grievances and disciplinary action
- Run performance management cycles using best practice
- Administer compensation and benefits programmes
- Apply the basics of HR analytics and reporting
- Identify and mitigate common HR risks
- Demonstrate core HR soft skills — communication, empathy, problem-solving

Who should attend

Aspiring HR professionals

Entering the field and building a foundation from scratch.

New HR Generalists

In the role and needing end-to-end process confidence.

Experienced HR practitioners

Refreshing skills and updating on current compliance.

People managers

Seeking a deeper working understanding of HR functions.

Programme at a glance

Format	Eight parts across twenty sessions, delivered online.
Duration	Set to suit depth — typically 30–40 hours of content, delivered online over a few weeks.
Focus	Core HR functions, Indian labour-law compliance, best practice, and the practical skills the Generalist role demands.
Outcome	A Certificate of Completion, awarded on successful completion of all assessments.

The curriculum — 8 parts, 20 sessions

Each part builds on the last, moving from context and compliance through the full employee lifecycle and into data, risk and professional growth.

PART 1 The Strategic Role of HR & Foundational Concepts

- **Session 1 – Introduction to HR:** what HR is and how it has evolved; the shift from administrative function to business partner; HR structures and models (HR Business Partner, Centres of Excellence); key HR metrics; ethics and professionalism.
- **Session 2 – Understanding the business context:** organisational structure and culture; basic business operations and revenue streams; aligning HR with business goals; stakeholder management across employees, management, unions and legal bodies.

PART 2 HR Compliance & Legal Framework (India specific)

- **Session 3 – Introduction to Indian labour laws:** Factories Act; Industrial Disputes Act; Trade Unions Act; Contract Labour (Regulation & Abolition) Act; Minimum Wages, Payment of Wages and Payment of Bonus Acts; EPF & MP Act; ESI Act.
- **Session 4 – Specific compliance areas:** POSH Act 2013; Maternity Benefit Act; Payment of Gratuity Act; Apprentices Act; overview of the new Labour Codes; maintaining legal records and documentation.

PART 3 Talent Acquisition & Onboarding

- **Session 5 – Workforce planning & job analysis:** job descriptions, job specifications and competencies; building effective recruitment strategies.
- **Session 6 – Recruitment & selection:** internal vs external sourcing, job boards, social media and referrals; ATS overview; resume screening and shortlisting; structured, behavioural and situational interviewing; assessment centres, background and reference checks; offer management and negotiation.
- **Session 7 – Onboarding & orientation:** orientation vs onboarding; designing pre-boarding, first day, first week and first 90 days; documentation and statutory forms; cultural integration of new hires.

PART 4 Employee Relations & Engagement

- **Session 8 – Managing employee relations:** fair treatment and conflict resolution; grievance handling; disciplinary processes including warnings, inquiries and terminations with their legal aspects; employee rights and responsibilities.
- **Session 9 – Engagement & communication:** what engagement is and why it matters; building a positive work environment; internal communication channels; surveys and feedback mechanisms.
- **Session 10 – Diversity, Equity & Inclusion:** DEI principles, the business case, and practical steps toward an inclusive workplace.

PART 5 Performance Management & Development

- **Session 11 – Performance management systems:** setting SMART goals; appraisal methods including 360-degree, rating scales and BARS; giving and receiving feedback; performance improvement plans.
- **Session 12 – Learning & Development:** training needs analysis; designing and delivering training; mentoring, coaching and career pathing; measuring ROI on L&D.

PART 6 Compensation & Benefits

- **Session 13 – Fundamentals of compensation:** compensation philosophy and strategy; basic job evaluation; pay structures and salary bands; market rates, performance and experience as pay factors; CTC, in-hand pay and allowances.
- **Session 14 – Benefits & statutory compliance:** EPF, ESI, gratuity and bonus; designing non-statutory benefits such as health insurance, leave policies and perks; payroll basics including TDS and professional tax.

PART 7 HR Operations, Technology & Analytics

- **Session 15 – HR Information Systems:** the role of HRIS in modern HR; common modules across recruitment, payroll, performance and employee data; data security and privacy including GDPR principles and local regulation.
- **Session 16 – HR data & analytics:** metrics and dashboards; using data for informed decisions; basic analysis such as turnover rate and time to hire.
- **Session 17 – HR risk management:** identifying litigation, compliance-breach and talent-loss risks; mitigation strategies; workplace health and safety overview.

PART 8 Essential Soft Skills & Career Development

- **Session 18 – Communication & interpersonal skills:** active listening and empathetic communication; delivering difficult news; presentation and negotiation skills.
- **Session 19 – Problem solving & decision making:** case-study approach to HR challenges; working through ethical dilemmas.
- **Session 20 – Career path for HR Generalists:** future trends in HR; continuous learning and professional development; networking and professional associations.

How it is delivered

Lectures & presentations

Core concepts and theoretical frameworks, trainer-led.

Case studies

Real-world HR scenarios for problem solving and critical thinking.

Practical exercises

Draft a job description, calculate payroll components, build an onboarding checklist.

Quizzes & assessments

Short checks at the end of each section to confirm understanding.

Guest speakers

Experienced HR professionals sharing field insight (optional).

Interactive simulations

Where the learning platform supports them.

Assessment & certification

Component	What it involves
Module quizzes	Short assessments after each major part of the curriculum.
Case study analysis	A detailed written analysis of a complex HR problem.
Final project	Choose one: develop an HR policy (e.g. leave or POSH policy); create a recruitment plan for a specific role; or design an employee engagement initiative.
Final exam	Comprehensive multiple-choice and short-answer questions.
Certificate of completion	Awarded on successful completion of all assessments.

Materials & resources

- Trainer-led presentations (PPT / Google Slides)
- Participant workbook and handouts
- Relevant legal acts and regulations, with links to government websites
- Sample HR forms, policies and templates
- Recommended readings and curated online resources
- Access to an online learning platform (LMS) where applicable
